

Application of Covid-19 label

This job aid will explain how the COVID-19 label can be added to/removed from a segment or request. The Covid-19 label allows any new projects and proposals for Covid-19 research or existing projects that are pivoting to Covid-19 research to be labelled as such. It is important to note that the Covid-19 label is not universally applied; each request and segment must have the label manually added/removed (ex: adding the COVID-19 label to an initial request will not automatically apply the label to the segment).

Who can apply/remove the COVID-19 label

Only members of the central offices (OSP, SPH ORA, and HMS ORA) are able to update segments and requests to add or remove the COVID-19 label. If a member of a school or department believe that their segment or request should be labelled as such, they should work with their pre-award representative in their respective central office.

Steps to add label to an initial/renewal, or segment

1. To add the Covid-19 label navigate to the initial/renewal or segment home and select the **“Actions”** button.
2. From the drop down select the **“Apply COVID-19 label”**

Remove COVID-19 label

Steps to add label to non-converted request types

1. To add the Covid-19 label navigate to the request home of a non-converted request type (ex: Continuation, Supplement, Changes to existing segment, or Internal requests)
2. Under the Request attributes panel will be a row titled **COVID-19** , on the far right of the row select **“Apply Label”** button.

Request attributes			
Request number	6385362	Retroactive	No
Type	Continuation		
Status	Under development		
COVID-19	No	Apply label	

Request attributes	
Request number	6385362
Type	Continuation
Status	Under development
COVID-19	Yes

Applying the Label will change the Covid-19 Request attribute to “Yes”

3. To remove the Covid-19 label repeat step 1 and under the Request attributes panel will be a row titled **COVID-19** , on the far right of the row select **“Remove Label”** button.

Request attributes			
Request number	6385362	Retroactive	No
Type	Continuation		
Status	Under development		
COVID-19	Yes	Remove label	

Request attributes	
Request number	6385362
Type	Continuation
Status	Under development
COVID-19	No

Removing the Label will change the Covid-19 Request attribute to “No”
